Part of Ecophon

Saint-Gobain Ecophon specialises in the design, manufacture, and delivery of acoustic systems and products. We are enthusiastic supporters of the idea that room acoustics matter for people's welfare regardless of the area, activity, or need.

Ecophon employs about 800 people and has commercial divisions in 20 different countries, as well as delegations in another 30. The headquarters are in Hyllinge, which is near to Helsingborg, Sweden.

OUR BRAND PROMISE

A sound effect on people - This is the core essence, position, and value of Ecophon, that summarize the overall benefits of our services and products.

OUR MISSION

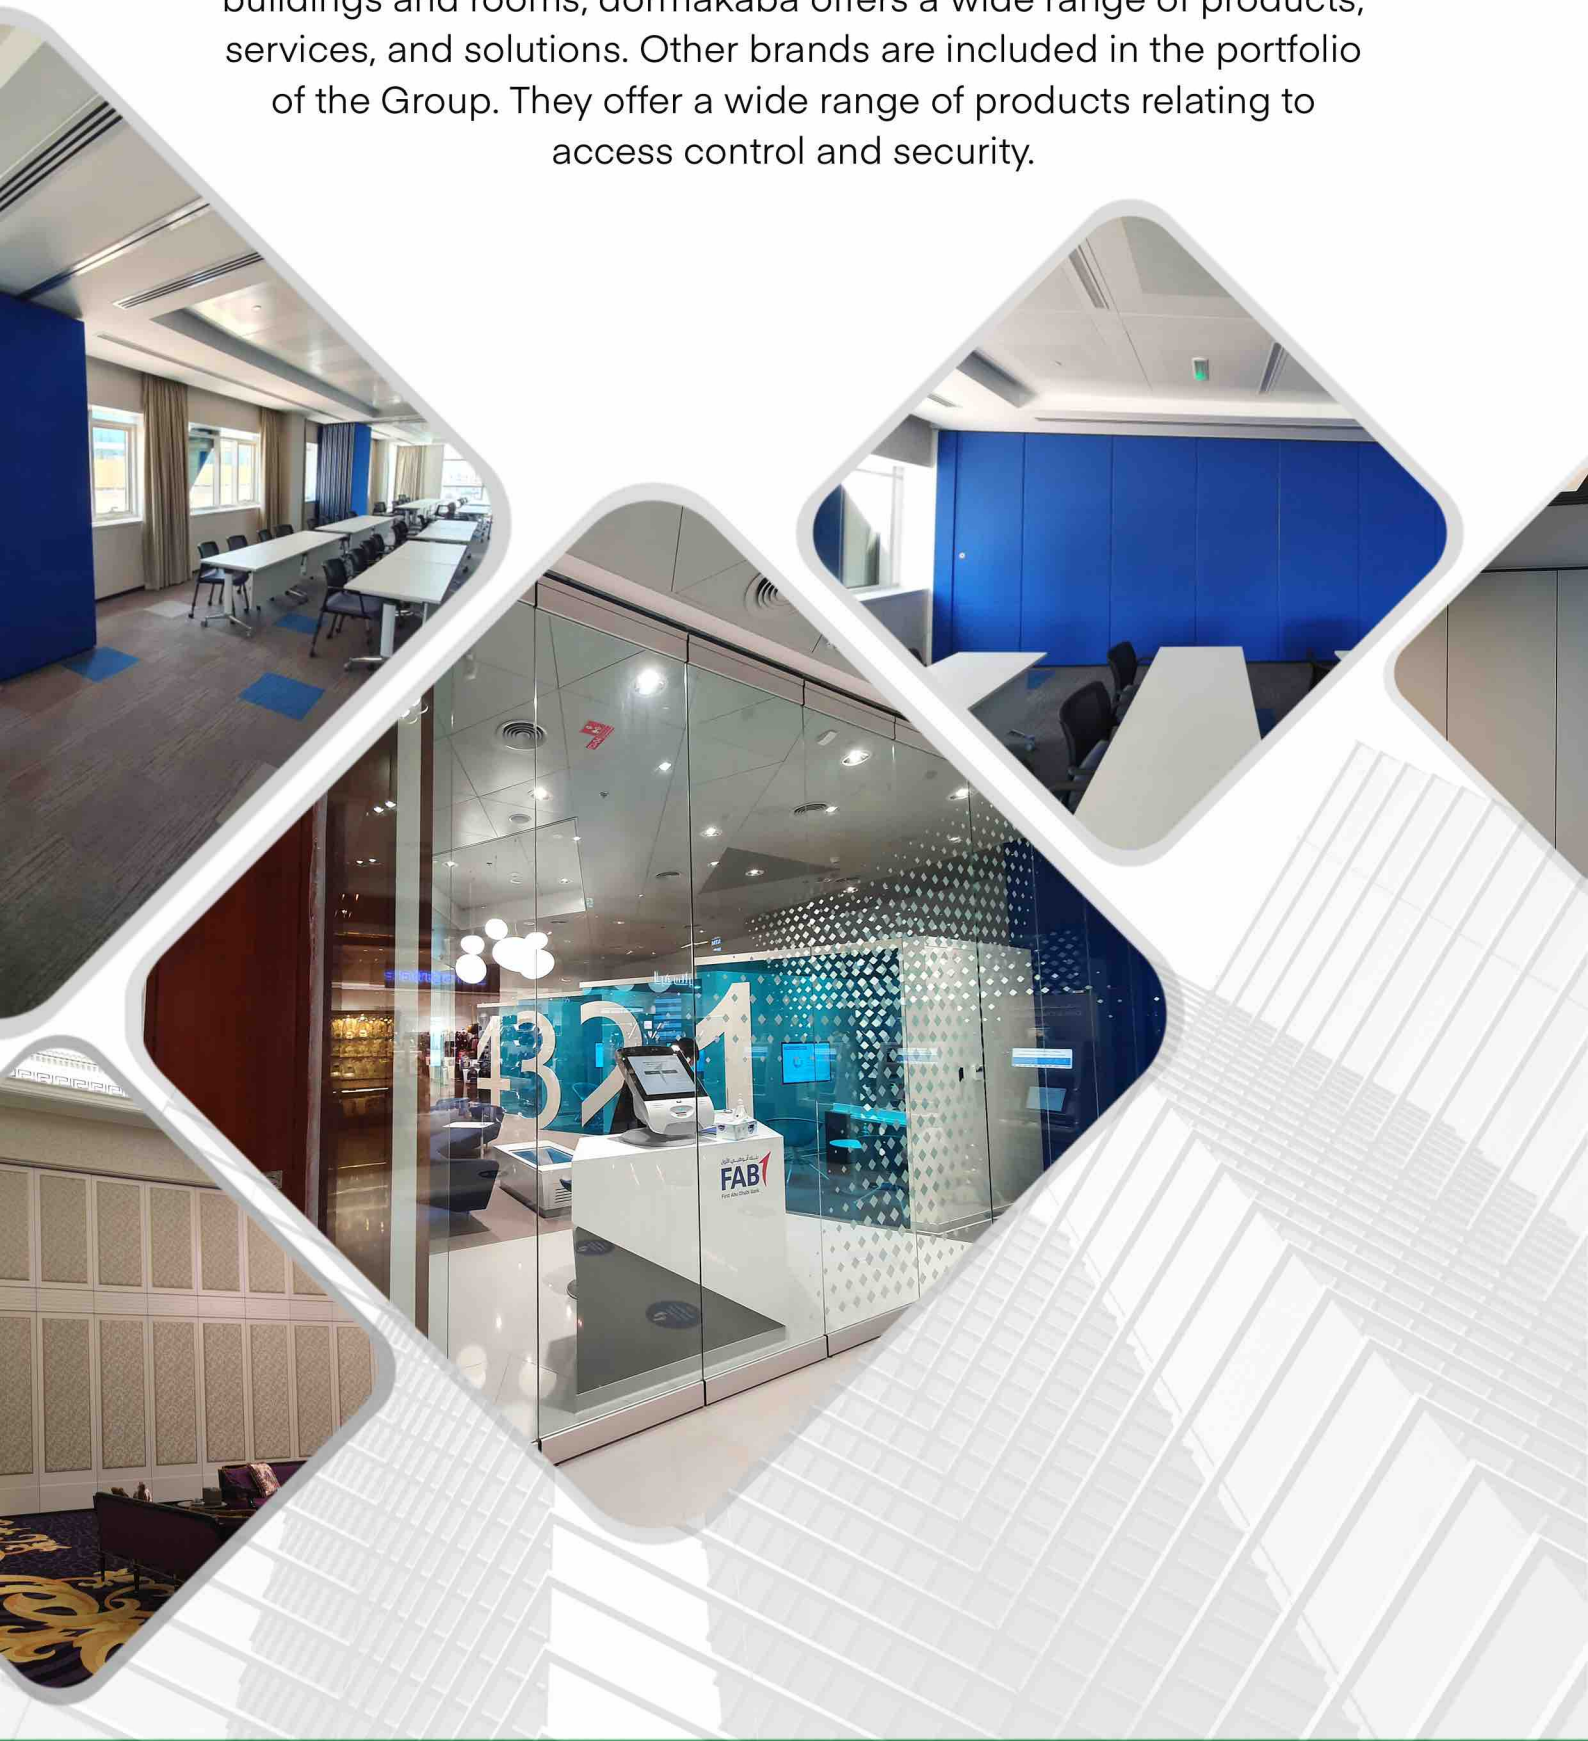

To contribute to a good working environment for the eye the ear and the mind.

OUR VISION

To earn global leadership in room acoustic comfort through sound absorbing systems, enhancing end user performance and wellbeing.

dormakaba

The well-known brands **Dorma** and **Kaba** were merged to create dormakaba. In order to provide smart and secure access to buildings and rooms, dormakaba offers a wide range of products, services, and solutions. Other brands are included in the portfolio of the Group. They offer a wide range of products relating to access control and security.

Modern structures and intricate facilities all over the world rely on our practical, secure, and attractive access systems.

We offer sector-specific solutions, from automatic doors in healthcare facilities to maintaining traffic flow in airports and retail. In line with our responsibilities on the economic, environmental, and social fronts to both the present and coming generations, we are dedicated to fostering sustainable development throughout our value chain.

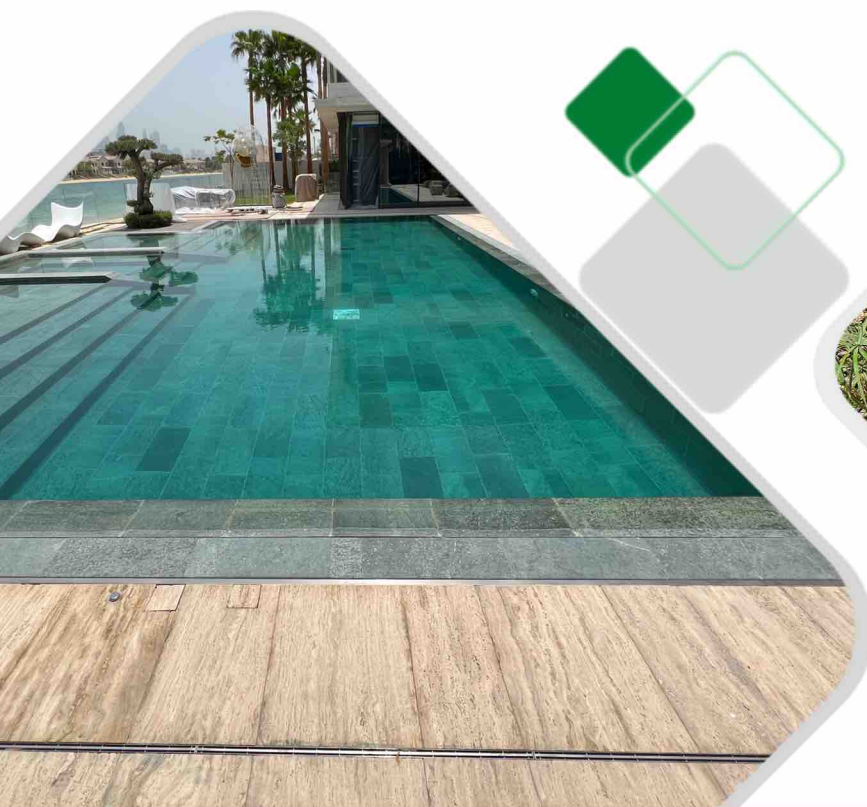

ACO Group is one of the world market leaders in drainage technology for professional drainage, economical cleaning and the controlled release and reuse of water. Founded in 1946 with head office in Germany, ACO products include drainage channels and drains, oil and grease separators, hygienic kitchen drains, customized bathroom and building drainage products.

The innovation strength of **ACO group** is built on intense research and development, and its technical expertise in processing polymer concrete, plastic, cast iron, stainless steel and reinforced concrete.
